

Module 1 -- Mission 5

CREATED FOR SUCCESS

1- In Module 1 you have learned that you were designed for success from a Biblical perspective. In your own words how have these teachings helped you to understand you were Designed for Success?

2- In this teaching Jody shared about his friend who was born with disabilities, in spite of that she has found success in her life knowing she was created by God for success. Do you recognize any disabilities physically, mentally, emotionally or spiritually that you feel are preventing you from finding success in your life? If so please list those areas of your life below and pray, asking God to remove any belief you have that your disability is greater than His Divine plan for your life.

3- At the end of this teaching you discovered the concept that if a creator puts their image on a product and name behind the product, it signifies their belief in the success of the product. As a person created by God how does it make you feel to know that God has put both His image on you and His name behind you because of His belief and knowledge in you that you can be a success?
